Exora

Title zone · keep it calm

The Exora name goes here. Sky, a wall, a plain colour or empty space work best. No lettering in your art.

Your artwork

One clear moment of shared living, bold enough to read when the cover is small (on Instagram, across a room). Any style: illustration, painting, collage, photography.

Cover lines + your credit

Keep this strip quiet: we add "Inside: …" and "Cover art by [your name]" here.
